Clan Of Xymox, A Day (Remix)

It makes no sense at all (where are you?)
It makes no sense at all (so far away)
In just one day (in just one day)
In just one day (in just one day)
In just one day (it makes no sense at all)
In just one day (it makes no sense at all)
In just one day (in just one day)
In just one day (in just one day)

Where are you
When I am needing you?
So far away
So far away
I think you are the most important
To me, to me
To me, to me
My sunken footsteps put theirselves on
Through this gallery of deceased
I think their lives must be deceived
Like the sham nowadays

Where are you?
So far away
It makes no sense
It makes no sense at all

It makes no sense at all (where are you?)
It makes no sense at all (so far away)
In just one day (in just one day)
In just one day (in just one day)
It makes no sense at all (in just one day)
It makes no sense at all (in just one day)
In just one day (in just one day)
In just one day (in just one day)
In just one day
In just one day
In just one day
In just one day
