Close To Home, Nights Like Tonight

What is it about the way that we can talk for hours
Never running out of things to say
I never could imagine you leaving
Until somehow I drove you further away
Now you?re gone and I see you were right
All this time

It?s time for new beginnings
This one we?ll start from scratch
Forget the moment you left
And things that we said
Kill the past and never look back

Let?s take a second lease on life
Another chance to make it last
Every mistake we made
Was just a figment of the past

You?ve got me dreaming
And I?ve got this feeling
Things may cave in like before
But let?s not relive the nightmares anymore

Been patiently trying to stop you from crying
Nothing I do seems to make it right
So I?m leaving tonight
Let?s go far from these crowds and the lights
Leave them behind

It?s time for new beginnings
This one we?ll start from scratch
Forget the moment you left
And things that we said
Kill the past and never look back

Let?s take a second lease on life
Another chance to make it last
Every mistake we made
Was just a figment of the past

Nights like tonight
Nights like tonight make all the difference

Nights like tonight
Just what I needed to clear my mind

Nights like tonight
Nights like tonight make all the difference

Nights like tonight
I found the answers I hoped to find

Things may change eventually
Just wait for it, just wait for it
We could be so much better
If we tried a little bit

Ready for the world
I reclaim my life
Let?s take it back

It?s time for new beginnings
This one we?ll start from scratch
Forget the moment you left

And things that we said
Kill the past and never look back

Let?s take a second lease on life
Another chance to make it last
Every mistake we made
Was just a figment of the past
