Code Red, Guess I-M Lost In You

If anyone had told me
That you would be my girl
And I would be your man
There's not a chance that I'd believe it
Cos look at who you are
And look at who I am
But the first thing that you taught me
Is things like that don't matter
We should look much further
Cos you don't love what you see but what's inside
And when I reached inside to feel your love
I could not believe how much there was
And so I have to give to you the rest of me
To match your love
Chorus
Guess I'm lost in you
Can't stop loving you
Just believe it
You know I mean it
Loved you from the start
Owner of my heart
Guess I'm lost in you
Guess I...guess I...

If this is just a dream
Then leave me, let me sleep
Don't disturb me please, no...

I wanna stay right here forever
Where love can't be denied
Cos you're right by my side

Each time I reach inside to feel your love
I believe in what I touch
And I give to you the rest of me to match your love
Chorus
Guess I found what I was looking for
A love to last forever more
I know that you're my truest friend
Here till the end
And then we can start again
I guess I'm lost in you lovin' you
Chorus
