Meat Loaf, One More Kiss (Night Of The Soft Par

[Part One]

At sunset you hear the soft parade is coming
The cars and the beast behind all start humming
And ooh you got a cool machine
So let's get it runnin'
We'll break the silence of the night
And you know they're gonna hear us comin'

We always see them whisper
We know they're gonna talk
They fantsise the mysteries
'bout the night and the dark

So baby one more kiss
Baby one more kiss
We never have to say goodbye
And baby one more kiss
Babay one more kiss
It brings a little luck to the night

Artists they got their easels
They're ready on the mark
Gonna try and take the pictures of the dust
and the gold in the sparks
And ooh you got a cool machine
Baby let's get it runnin'
You never looked so good before
and your time it's finally comin'

'Cause our home is the wind
We're the gods of the mornin'
Champions of the night
when the engines are runnin'

So just one more kiss
Baby one more kiss
Never wanna see you cry
And baby one more kiss
Baby one more kiss
It brings a little luck to the night
Oh one more kiss
Yes just one more kiss
We never have to say goodbye

[Part Two]

Ready
Ready to Roll
Ready
Ready to Roll
Ready
Ready to Roll
Ready
Ready to Roll
Ready

Under my foot gonna hit it down
Take this stance before the crowd
Sleepin' city urban fall
Summer's sadness time to answer the call

Cool machine
Get it runnin'

Ready to roll

Soft hands around my neck
One more kiss then time to connect
Leave this child leave me all alone
This one's mine and I'm takin' it home

Ready Ready
Ready to Roll
This one's mine and I'm takin' it home

[Part Three]

Now beind closed walls
New histories start to rise
Of the soft parade
and the heroes where they lie
And ooh you've got a cool machine
So baby let's get it runnin'
You never looked so good before
and you know your time it's finally comin'

'Cause our home is the wind
We're the gods of the mornin'
Champions of the night
when the engines are runnin'

One more kiss
One more kiss
One more kiss
One more kiss
One more kiss
One more kiss
It brings a little luck
Brings a little luck to the night

Ooh one more kiss
One more kiss
Baby one more kiss
We never have to say goodbye
And ooh you've got a cool machine
Baby let's get it runnin...
