Media Lab, Our Summer

Can you now feel the cold
Can you feel my heart freezing
You left me here to die alone
In winters ice
Memories of the sun and you smiling
Winters set, you're gone, someone save me
Remember
Our Summer
Frozen tears bleed from my face
You're never coming home
Summers gone the ground is cold
And I miss you
Summers gone
Summers now through, I cant unfreeze you
Leave me here dying, summers gone, I cant breath
