Public Image Limited, Like That

Talk talk talk talk talk

CHORUS

Like that, she did not like that
She did not like that - she never will
Like that, she did not like that
She did not like that - she never will
Just like a woman
Bad boy you should not do that
You penny pincher from rags to riches
And it's a pity so inexpertly
You mixed your roses with your cabbages

CHORUS

Like that. She does not like that
Like that. She did not like that
Just like a woman. And every man
In human nature these snakes and ladders
The fairground noises are messages
Life would be dull and boring
Without the choices of passages
Just like those dancing dervish
We spin in circles we strike up poses

CHORUS

Just like a woman, and every man
Combine those dreams and wishes
On standard clauses and marriages
