Daisy Tripping, Sonic Bloom

Love gets inside of you
It makes me invisible
And I will continue to hang on super love, a sonic bloom
A total emotionless excuse
I can't believe it happened to me
The magic's in my heart, believe me
Rushing through my electrical phase
I found a place to hide when you're away
Almost caught myself a breath
I touched your hand, I lost myself instead
I wanna be just as good
I wanna make it better
I wanna see you sideways
I wanna make it better
When love gets inside of you,
It makes me invincible
And I can't believe this happened to me
