Roger Taylor, Believe In Yourself

(Roger Taylor)

I used to think I was a loser
And all I did was bound to fail
To be a shaker and a mover
Keep the bad guys on your tail
Everybody wanna get to the top af the heap sometime
Everybody wanna climb to the top of the hill sometime
Everybody gotta take a little piece of the heat sometime
Everybody gotta stand on their own two feet, sometime

I mean you, and I mean you
I mean you, and I mean you
Believe in yourself, and nobody else

Everybody wants a shot at a lick of the cream sometime
Everybody wanna go, make a bit of a show sometime
Everybody need a chance, tap into the flow sometime
Everybody wanna trip, get a crack of the whip, sometime

I mean you and I mean you
I mean you and I mean you
Believe in yourself, and nobody else

People with problems
People on streets
People down your way
People you meet
