Monsoon, Big dog

Theres a wild dog in my bed
Fiery eyes red tongue and bad breath
Im gonna twist Im gonna twist off its head
Till the black bile comes out of it
That big dog wagging its tail
Bearing its teeth and barking at me
I do the best I do the best the best I can
Got to get get get rid of it
So lets ride ride
Really want tohave to find a way to get away

Theres bad blood under my skin
A river carrying poison and sin
A little voiceA little voice whispering
