Shannon Noll, Loud

Hey, hey
Do you think I can make it?
Do you think I can take it?
Because you know I can't fake this
Do you wanna?

But who would ever believe
That this could happen to me
That this could be true
That this could be me
That this could be you

Do you wanna get loud?
Everybody get loud
Do you wanna get, get, get, get

Hey, hey, hey
Don't you think it's amazing?
Such a beautiful day
Lets all sing it together

And who would ever believe
That this could be true
That this could be me
That this could be you

Everybody get loud
Do you wanna get loud?
Everybody get

Up, turn it up, turn it up
We can take it higher
Up, turn it up, turn it up
We can make it higher

Cause I sill believe in the power of song
Something so right could never be wrong
So stand here beside me and give me your hand
To go home and love cause you know that we can

Loud
