Don Philip, How Did I Ever

I've tried but I never felt like this
When I feel what I feel from your touch, your kiss
You made me wake up you opened my eyes
To the love that I held deep inside
And as time goes by
I've tried to figure out
Just how I got on my own

CHORUS:
How did I ever live without you
How did I ever laugh, how did I cry
How did I ever do anything
Before you and I
When we're together you are all I need
Everything is so easy it just comes to me
How did you know me so well, so real, so true
How did you know I needed you
And as time goes by
I've often wondered why
It took me so long to give in

CHORUS

You showed me how I would give in
How I could give myself away
Girl for your love I'd do anything
I'll never be the same

CHORUS
