Oblivion Dust, Trust

Move onto you undetected
Think that it's time that you should trust me
Locate the melody if you can
Droppping like superstars from heaven
(Check it up)

I will take you there
I am your tomorrow
I am, I am

Can't help but see me get deleted
Try not to let it get me down though
Scary to think that you are all wrong
Forgive your everlasting childhood

Can't... get... to me

I will take you there
I am your tomorrow
Unborn in your eyes still
I will make these songs come true

Come on, come on, come over me
I am your hyped angel

I will take you there
I am your tomorrow
Unborn in your eyes still
I will make these songs come true
