Donots, Do You Still Remember

Do you still remember
All those summer-nights?
Do you still remember
How we committed stereocide?
Do you still remember
The lines to our favorite songs
Do you still remember
All those plans we had,
The dreams we shared,
What we did and never dared?
I know that you still care
Our brains came last
And mouths came first
We gave our best
For what it worth
I wish we could
Go back to the days
Back to the days
Back to the radio days
Do you still remember
Stepping out of line?
Do you still remember
That time was on our side?
Do you still remember
The bonds and "Let be friends"
Do you still remember
The radio days
Please take me there
Back to the days
