One Way System, Rise To Flame

Jacata charts his rise to flame
Bob Hasan hides as his people complain
The forests are burning out of control
The city mourns the death of it all

Who will face the blame
For Bob's rise to flame?

Pak the man leads their stand
Is moral war for this burning land
Complained about the wrongs of the State
Pumped up charge fucked Pak's fate

When they set the fire
Who's gonna put it out?

T.V. ads. full of lies tell the people it's alright
The fire in the wood burns out of control
Who's gonna believe you?
Is it wrong to stand and fight?
Somehow we've got to know
The fire in wood burns out of control
Who's law of destruction?

Bob sees fit to choke the earth
Ex-presidents tries to show their concern
Do they listen to the forest die?
Face your public and tell them why

Now you have to explain
How you seek to repay

3 million acres for your save-face
What will it take, what is the price?
A moral war for a precious land
It's time to listen, give the people a chance

You know your face is gonna fall
And it's you who choke us all

T.V. ads. full of lies tell the people it's alright
The fire in the wood burns out of control
Who's gonna believe you?
Is it wrong to stand and fight?
Somehow we've got to know
The fire in wood burns out of control
Who's law of destruction?
