Simple Plan, My Alien

I'm sick of being alone, when are you coming home?
Just a glimpse of your face
I can remember smelling your hair, I'll meet you anywhere
Somewhere that no one can retrace
Somewhere where nobody will know our faces

[Chorus]
She has two arms to hold me
Four legs to wrap around me
She's not your typical girlfriend
She's my alien
My alien

She knows when something is wrong, when something doesn't belong
She can read in my mind
And she can be assured that with me, there is no conspiracy
She's not wasting her time
She can take me to the place that she calls home,
in a spaceship that will someday be my own
Please take me to your leader
Tell her I will surrender
I will surrender

[Chorus]

My alien [repeat 4x]

[Chorus 2x]

I bought the astronauts kit
Now all I needs a rocket
My love, intergalactic friend
She's my alien
