P.O.D., Wildfire

Come and give me that wildfire
The uncivilized sound that I love
The primitive ragga blaze style
Consciousness vibes I and I know
The untamed flame that I desire
Me want uncultivated Jah glow
Foolish intensity, versatile
Fly the spirit high, take me higher

[Chorus:]
One leads with the passion
The righteous will burn again
One bleeds everlasting
Tribal fire will never end
[repeat]

I want to feel that wildfire
Irregular burning of the sun
Shining through make you spit fire
Savage combustion, let it go
Impetuous fervor testifier
Outlandish passions I know
Crucial rhythms no denial
Musical nation, empire

[Chorus]

[repeat chorus]
