Down By Law, Turn Away

turn away just don't let her turn away
other way just don't look the other way
and if you'd seen her face
if you'd seen her
just a smile that was withering away
I wanna look but it's gonna be too late
untouched by another persons fate
and I don't like that
turn away just don't let her turn away
other way just don't look the other way
oblivious to haze
too good to turn away
don't turn away
