Papa Roach, Singular Indestructable Droid

Blood of my blood, skin of my skin
A normal human being
Solder and wires, ciruitry
Far from human beings
He's sick of this skin, it's time to trade it in
A galaxy of emotions, your soul is what it costs
We walk the same path, nobody could get in our way
Dangerously, we passionately never hesitate
Keep the soul, that's control
Keep the soul, (Now you put in the metal) that's control
S.I.D.

Willing to make the change
Surrender the flesh and bones
Against the grain
Pushing beyond the limits of ourselves
This body is just a cage
You're dead and you're in a grave
We're losing our minds, that's just fine
Living forever
Keep the soul, that's control
Keep the soul, (Now you put in the metal) that's control

Bleed out my blood, skin off my skin
Solder the wire, transformation
Take my body and release me from this cage
You can't put a spirit in a grave
