Solu Music, Fade (Original Mix)

Look at me, stare inside.
Take my place, in my mind.
Capture me, follow through.
Validate, wanting you.
It's been a long, long time.
Since you been on my mind and I...
I must forget about us.
Turned away. What to do ?
Let it go. Follow through.
Lost within. Endless eyes.
Lusting calls. Logic cries.
Baby this seems so right. Baby this seems so wrong.
Hour after hour, so long, day after day, so long,
year after year after year.
And now we're here...

Never fade from my mind.
Shower me and give me life.
Never fade from my mind.
Always there when I close my eyes.
Never fade from my mind.
Shower me and give me life.
Never fade from my mind.
Always there when I close my eyes.

Hesitate. Pull me in.
Breath on breath. Skin on skin.
Loving deep. Falling fast.
All right here. Let this last.
Here with our lips locked tight.
Baby the time is right for us...
to forget about us.
Shelter me. Give me light.
Sexy days. Sensual nights.
Ain't no way, you'll be gone.
Cause I'll be here, still holding on.
Baby it's been so long,
and it could be tonight.
Hour after hour, so long, day after day, so long,
year after year after year.
And now we're here...

Never fade from my mind.
Shower me and give me life.
Never fade from my mind.
Always there when I close my eyes.
Never fade from my mind.
Shower me and give me life.
Never fade from my mind.
Always there when I close my eyes.

Give me life.
Give me life.
Give me life.
Give me, give me, give me life.

Never fade from my mind.
Shower me and give me life.
Give me love and give me life.
Never fade from my mind.
Always there when I close my eyes.
Never fade from my mind.
Shower me and give me life.
Give me love and give me life.

Never fade from my mind.
Always there when I close my eyes.

((yeah oooh yeah))

Never fade,

in my life.

Never fade,

in my life.

Never fade,

in my life...

Best song ever, powered by easeful. Greetings.
