# Dragonette, Teacher Teacher

I'm so glad to finally reach ya
You know how I wanna treat ya
You're my very favorite teacher, teacher
It's my turn to learn ya something
Won't no one be turnin' us in
No one ever tells on teacher, teacher
If it's against the rules
I won't go back to school

Don't know too much but I know enough
I learned a little bit about the good stuff
Not too much but I know enough
I learned the good stuff

Tell me where to meet ya, teacher
So I can complete ya, teacher
A little one on one will get things done
Daddy said he's going to beat ya
Mama's going to call the preacher
Teacher you an I we're on the run
So it's against the rules
I won't go back to school

Don't know too much but I know enough
I learned a little bit about the good stuff
Not too much but I know enough
I learned a little bit about the good stuff
I learned a little bit about the good stuff
I learned a little bit about the good stuff
I learned a little bit about the good stuff
I learned a little bit about the good stuff

(Good stuff) I learned a little bit about the good stuff

Got somethin' I wanna teach ya
Demonstrate my favorite feature
Betcha that you'll like this teacher, teacher
I'm so glad to finally reach ya
You know how I'm gonna treat ya
You're my very favorite teacher, teacher

Don't know too much but I know enough
I learned a little bit about the good stuff
Not too much but I know enough
I learned a little bit about the good stuff
Don't know too much but I know enough
I learned a little bit about the good stuff
Not too much but I know enough
I learned a little bit about the good stuff
