Ducky Boys, Always Be There

You've had rough times and I've had some too
While you've made mistakes,
I could always learn from you
You walked a path, I was close behind
You'd set me right and you'd warn of what you'd find
I wish these days that I had the past
When you weren't so down and I could hear you laugh
Those days are gone we're to face the world
You're struggling but your cries won't go unheard
You can count on me when you're feeling down
You can call on me when there's no one else around
I'm not so happy with the way things went
but I won't forget, you'll always be my friend
I just want you to know that I will always be there for you
You've taken turns I was scared to make
Then you looked to me and said it was a mistake
I let you go wrong while you led me right
But I let you go, now I never want to fight
I just want you to know that I will always be there for you
