Earth, Wind & Fire, Love Is The Greatest Story

Maurice White, David Lawrence & Faye Greenberg

(I) walk around, and take it all in
Tell me now, where have I been?
Nothin' like reality
To get your mind in gear

Lived my life to the extreme
A lost road to my dream
Found true reality
And now my mind is clear

I found out today
Love's a better way
In my heart I learned to listen
I was wrong to stray
Won't you let me stay
You and I, baby, that's what's missin'

Chorus:
Love is, love is
Love is the greatest story
Love is, love is
Love is the power and glory

Runnin' hard, from my past
I was goin' nowhere fast
Lookin' for a guarantee
My mind was so unclear
Played around, but never played smart
Never listen to my heart
Didn't know that your love
Was right here waiting for me

I found out today
Love's the only way
Baby let us stay together
I was wrong
But my heart is strong
I'm loving you forever and ever

Chorus

Love is in my plan
No greater love, than
What I've grown to understand
About being a man

Chorus
