

3-11 Porter, Universal Love Song

I saw a face full of sadness
Captured with the loss of yesterday
You said, now I don't want to be a burden
I just want to carry on to make a new life
This is a universal love song
I send it out so everyone can hear
This is a universal love song
I send an S.O.S., are you there?
I saw you wearing a black suit
And I guess it fit your soul
But nothing can ever change
The purest love has yet to come
This is a universal love song
I send it out so every one can hear
This is a universal love song
I send an S.O.S., are you there?
This is a universal love song
I send it out so every one can hear
That the beast of hate must go to sleep now
For a million years or maybe more
This is a universal love song
I send it out so every one can hear
This is a universal love song
I send an S.O.S., are you there?
