Echoes, Need Somebody (Who Needs Me)

need somebody who needs me
need somebody who needs me

Covering plastic film all around
A thousand of streets bells in the sound
This is what I feel
I believe that
But everything'll be warm
When you come

Chorus
And I'll say all my song
I wanna love you
I need somebody
Who needs me

I wanna love you, slowly
I wanna love you
I need somebody
Who needs me

I need somebody who needs me
I need somebody who needs me
I need somebody who needs me
I need somebody who needs me

Believing me
I believe that
Discover me with all feel
I'm waiting here
with the perfect plan

Stinging advancing bounce
From the crowd
A wall of fires dance , feeling wild
Yeah
This is what I feel
I believe that
Oooh, but sorrily they'll come
With a smile

Chorus
And I'll say all my song
I wanna love you
I need somebody
who needs me

I wanna love you, slowly
I wanna love you
I need somebody
who needs me

And I'll say all my song
I wanna love you
I need somebody
who needs me

I wanna love you, slowly
I wanna love you
I need somebody
who needs me
