# Sugar Jones, Poison

you better stop, better run away
you better listen to what i have to say
i'll keep you hangin' on the line
with just one kiss i will blow your mind
your desperation makes you feel insane
fever runnin' high
you will never be the same

chorus:
don't you treat me bad
don't you make me sad
our love could be deep as the ocean
if you can't be true i got news for you
just remember i can be poison

some people say that i'm hard to tame
they know that "trouble" is my middle name
too dangerous, what you want from me?
this chemistry in my body
i've got you scared, and now you're runnin' blind
don't make me mad cuz you know i won't be kind

chorus x2

don't give empty reasons baby
cuz i don't want your lies
don't think you can deceive this poison deep inside

chorus x2
