Edwin, Superhoney

I haven't slept in days
I kick the can around
Can't even smoke a jay and
Chew my bubblegum

Don't have the time to talk and joke and hang around
The superhoney's coming down

ohohoh
Little miss electro
she's plugging me in
a technical peepshow
she's my original sin
superhoney
superjunky
(closer to reno)

You wanna keep on talking
saying nothing good
i wanna keep you thinking
like you never should
spending all night long in never never land
the superjunkies spinnin round

ohohoh
Little miss electro
she's plugging me in
she loves to go retro
she's my original sin
superhoney
superhoney
superjunky
superjunky

you're just another hit
that i'm depending on
you're just another taste
that i've been sucking on
in your big brass bed
you never sleep
in your big brass bed you
n-n-never!

ohohoh
little miss electro
she's plugging me in
a technical peepshow
she's my original sin
little miss electro she's my original sin
little miss electro she's my original sin
