

# 3 Colours Red, Halfway Up The Downs

Halfway up the downs  
I want to kill the clowns  
They're laughing, laughing loud  
Halfway up the downs  
Halfway to somewhere, halfway to nowhere  
I try to give care, how can you play fair?  
Halfway up the downs  
I want to kill the clowns  
They're laughing, laughing loud  
Halfway up the downs  
Where are you going?  
Would you try for me?  
What are you knowing?  
What have you seen?  
Halfway up the downs  
I want to kill the clowns  
They're laughing, laughing loud  
Halfway up the downs  
Who fucking cares?  
Don't say you care  
I know just where you're coming from  
Just where you're coming from  
And you've got to have money  
New religion is money  
New religion is money  
Halfway up the downs
