Elemeno P, One Left Standing

Take a lesson from this heart
As it was broken
And I know you're torn apart
With what was spoken

But only if you could see
What is clear and dear to mw
Take a lesson from this heart

One left standing is the
One left stranded is the
One left crying in the dark

And now it's clear to me
Just like this night can be
We sell ourselves so short
Untill we let it go

Take a lesson from this heart
As it was broken
And I know you're torn apart

So from one friend to a friend
Hearts break, they blend they
Mend
Take a lesson from this heart

One left standing is the
One left stranded is the
One left crying in the dark

And now it's clear to me
Just like this night can be
Well sell ourselves so short
Untill we let it go

So let it, let it go
