TEARs, Refugees (Video)

You are the dust and I am the rain
Let's go out in the rust and
Let's gather the change

Let's take to the streets
You and I we're life's refugees
But like Bonnie and Clyde we're free
Don't say there's nothing between us

You stain the pavements, I'll take the blame
Our love is our saviour, our life is our grave

Let's take to the streets
You and I we're life's refugees
But like Bonnie and Clyde we're free
Don't say there's nothing between us

We're all refugees and we're all drifting like leaves
But like Bonnie and Clyde we're free
Don't say there's nothing between us

Well we'll live for the sunshine and
Smile through the rain

Cos we're all refugees and
We're all drifting like leaves
But like Bonnie and Clyde we're free
Don't say there's nothing between us

So let's take to the streets
You and I compete with the freaks
And like Bonnie and Clyde we'll be free
Don't say there's nothing between us

Well there's nothing between us
Well there's nothing between us
