

3 Doors Down, Down Poison

Ive dreamed about this,
Sixteen days away
Now youre here,
And my head lays besides your body,
Pillowed under mine
You were poison,
Spinning round my mind
Welcome to my world
She said, do you feel
Alive she said
Its all a bad dream,
Spinning in your lonely head,
Welcome to my world,
She said, separated world,
She said, separated,
Down poison,
Down poison,
Body withered,
Body died,
Time to take away this life
Bad enough to die from one,
Not to mention
Four or five
Welcome to my world
She said, do you feel alive she said
Its all a bad dream,
Spinning in your lonely head
Welcome to my world she said,
Separated world,
She stayed separated
Down poison, down poison
Down poison, down
You werent there for me, I was there for you
You werent there for me, I was there for you
You werent there for me, I was there for you
You werent there for me, I was there for you
You wouldnt die for me, Ive died for you
You wouldnt die for me, Ive died for you
You wouldnt die for me, Ive already died for you
You wouldnt die, you wouldnt die, you wouldnt die!
Welcome to my world she said, do
you feel alive she said
Its all a bad dream,
Spinning in your lonely head
Welcome to my world she said,
Separated world, she stayed separated
Down poison, down poison
Down poison, down.
