The Chemical Brothers, Setting Sun

(vocals : Noel Gallagher)

You're the devil in me I brought in from the cold
You said your body was young but your mind was very old
You're coming on strong and I like the way
The visions we had have faded away
You're part of a life I've never had
I'll tell you that it's just too bad (X5)

You're coming on strong
You're showing your colour
Like a setting sun
