The Connells, Find Out

You're thinking everybody needs to know
What sets you so far apart.
On a hunch I think I could show
But we'll let you keep the part.

You gotta pull it off
When we least expect it.

Really need to see your face on the wall
Of a three or four star restaurant.
Shouldn't take more than a call
You always seem to get what you want.

Gotta pull it off
When we least expect it.
Gotta pull it off...

Then we'll find out
What this is really all about.
Then I'll be the one who says "I don't believe it."
Then we'll find you
Like you'd always want us to,
Face the first in your own favorite way.
