## 3 Doors Down, Here By Me

I hope youre doing fine out there without me Cause Im not doing so good without you The things I thought youd never know about me Were the things I guess you always understood

So how could I have been so blind for all these years? Guess I only see the truth through all this fear, And living without you

And everything I have in this world And all that III ever be It could all fall down around me. Just as long as I have you, Right here by me.

I cant take another day without you Cause baby, I could never make it on my own Ive been waiting so long, just to hold you And to be back in your arms where I belong

Sorry I cant always find the words to say But everything Ive ever known gets swept away Inside of your love

And everything I have in this world And all that III ever be It could all fall down around me. Just as long as I have you, Right here by me.

As the days grow long I see That time is standing still for me When youre not here

Sorry I cant always find the words to say Everything Ive ever known gets swept away Inside of your love

And everything I have in this world And all that III ever be It could all fall down around me. Just as long as I have you, Right here by me.

And everything I have in this world And all that III ever be It could all fall down around me. Just as long as I have you, Right here by me.
