Fifth Avenue, Spanish Eyes

I never wanted this feeling,
I never thought it would come
This love that grew inside me
But I know what has to be done
Baby I loved you, held you
Did everything my heart desired
But like the wind, you're gone from me
Where do I turn now?

(Chorus)
Can we bring it back
A love that made me quiver
When I saw your face
The one that made me shiver
When you lay with me
My beautiful Spanish eyes don't go away

no no no, oh baby don't go

This beautiful vision I once held
That kept me safe and warm
It's beauty I call my best friend
Lost a pure heart so strong

Baby you left me, all alone
With nothing but time on my side
But my heart will brake if you can't hear me say

(Chorus)
Can we bring it back
The love that made me quiver
When I saw your face
The one that made me shiver
When you lay with me
My beautiful Spanish eyes don't go away

no no no baby don't go

No don't leave me here,
Leave me here all alone
No don't let go this love away
I needed so much more, than I ever had before
I need your love in each and every day.

(Chorus)
Can we bring it back,
the love that made me quiver,
When I saw your face,
The one that made me shiver
When you lay with me
My beautiful Spanish eyes don't go away

Can we bring it back,
the love that made me quiver,
When I saw your face,
The one that made me shiver
When you lay with me
My beautiful Spanish eyes don't go away

My beautiful Spanish eyes don't go away
