# The Georgia Satellites, Bring Down The Hammer

I'm gonna bring down the hammer, swing it righteous wrong or right

Well I held on like a child to a dream ???
one thousand ???, just bought and sold
seems like I carried a torch for nothing
I'm a fool with an empty crown
even a fool woke up now there's a devil ahead
????

I've been living like a blind man, I've just seen the light
and I'm gonna bring down the hammer swing it righteous wrong or right

and now you stole the promise, left without an answer why
but that's alright I'm damn sure ??? tonight
and I don't care what's coming next
I got answers in my head
whatever's left by morning's likely where I'll make my stay

well I've been living like a blind man
and I've just seen the light
