

3 Doors Down, Smack

Rubber headed motor junky,
Run me down and try to stomp me
Throw my life away, and Ill be worthless
Just like you
Somewhere now a babys crying,
Down the road his mothers dying
Shot a line and blew her mind
And now shes turning blue
Dont you throw your life away,
Just wait until another day
Dont you throw your life away,
Cause baby I can feel it
Dont you ever compromise it,
Dont you even realize it
Dont throw your life away,
Cause baby I can feel it, now
Trip and fall,
Im sure you all can tell me
What is on the wall behind the liquor store
Where you get smacked up all the time
Perfect little life you wasted,
Overdosed and that death you tasted
Scared you back into yourself, and now
You walk the line
Dont you throw your life away,
Just wait until another day
Dont you throw your life away,
Cause baby I can feel it
Dont you ever compromise it,
Dont you even realize it
Dont throw your life away,
Cause baby I can feel it, now
Life away
Life away
Life away
