

# 3 Doors Down, Smack

Rubber headed motor junky,  
Run me down and try to stomp me  
Throw my life away, and Ill be worthless  
Just like you  
Somewhere now a babys crying,  
Down the road his mothers dying  
Shot a line and blew her mind  
And now shes turning blue  
Dont you throw your life away,  
Just wait until another day  
Dont you throw your life away,  
Cause baby I can feel it  
Dont you ever compromise it,  
Dont you even realize it  
Dont throw your life away,  
Cause baby I can feel it, now  
Trip and fall,  
Im sure you all can tell me  
What is on the wall behind the liquor store  
Where you get smacked up all the time  
Perfect little life you wasted,  
Overdosed and that death you tasted  
Scared you back into yourself, and now  
You walk the line  
Dont you throw your life away,  
Just wait until another day  
Dont you throw your life away,  
Cause baby I can feel it  
Dont you ever compromise it,  
Dont you even realize it  
Dont throw your life away,  
Cause baby I can feel it, now  
Life away  
Life away  
Life away
