Tiger Army, Devil Girl

She's my little devil girl, woah no
Cruising down the road with her
When I'm inside of...
there ain't nothing else, nothing else, woah no

Even as the time is getting tight
And I'm falling down again
Off I cruise into the night
That's been my only friend

Like an angel from hell she comes to me
But her dress can't hide her devil tail
She is temptation, she smiles
And I'm damned if I do, damned if I don't

Even as the time is getting tight
And I'm falling down again
Off I cruise into the night
That's been my only friend

Even as the time is getting tight
And I'm falling down again

Off I cruise into the night
And I'm alone once again
