Silent decay, Ghost

I feel a ghost in my neck
a ghost on my mind
the ghost is me!
What can you do when I capture your brain and
all what I want is to be free
so let it be...
The Answer is near
the answer is you
Oh its deep in your mind
Lets try to find yourselve again!
Fire is in my legs
blood is on my mouth
What lives in me?
Yes I am here to set you free from the pain and
all what you want lives in me
so let me free!
so let it out
so spit it out
lets try to find yourselve again!
