Tyketto, Catch My Fall

I count the headlights on the highway spinning 'round
Until the sparkle blurs my eyes
I want to run until I break the speed of sound
So I can't hear the voice inside
Where it hides

Where can I look to find the strenght to try again
Who knows a place I can call home?
How can I face a world that's too quick to condemn
A soul that isn't like their own
All alone

BRIDGE:

Where do we go from here?
Running from pain and fear
Where do we go from ..
Here we are, changed forever
Always together

CHORUS:

Whatever may happen
Wherever you go
I will always be with you
And you won't walk alone
If ever I stumble
Whenever I fall
You will be there to catch my fall

You said that you would walk beside me close at hand
You said that love would be my guard
One set of footprints stretched behind me in the sand
You must have carried me this far
And for so long

BRIDGE

CHORUS

Road goes on
For so long
We are on our own
But we're not alone
Someone will catch my fall

SOLO

BRIDGE

CHORUS

CHORUS (alt.):

Whatever may happen
Wherever you go
I will always be with you
And you won't walk alone
Into every lifetime
A little rain will fall
You will be there to catch my fall

CHORUS
