Gerry Rafferty, Home From Home

Living way down here and you're way up there
When I get this way I can't feel you anywhere
Can't feel you anywhere
And I don't even care in this home from home.

The people in the room trying to let it g
But everybody's so wound up they got nothing to show
Baby you'll never know
Baby I can't let go in this home from home.

It's so hard to leave you it's hard now everytime
You know how I need you
I'm always here inside, I never see the day
And when the nighttime comes I try and drink the blues away
Drink the blues away
Baby I just can't stay in this home from home.
