Weta, Conversations

You know I don't believe this anymore
And no one believes me now anyway

The conversation is the thing that goes around with you
The conversation is the thing that goes around

And I can't sleep
And I can't eat
But I'm all right
'Cause I
I've got you

As I wake into my dreams
And fall down a thousand stairs
I get up again and take one step until I get there
I don't know what I might find
It gives me peace of mind
As I sit and feel the presence of your loving hands

'Cause the conversation is the thing that goes around with you
The conversation is the thing that goes around

And I can't sleep
And I can't eat
But I'm all right
'Cause I
I've got you

As I wake into my dream
And fall down a thousand stairs
I get up again and take one step until I get there
I don't know what I might find
It gives me peace of mind
As I sit and feel the presence of your loving hands

'Cause the conversation is the thing that goes around with you
The conversation is the thing that goes around

The conversation is the thing that goes around with you
The conversation is the thing that goes around

But I'm all right
'Cause I
I've got you

'Cause I've got you

I've got you

'Cause I've got you
