Gerry Rafferty, So Bad Thinking

Come home every evening when the sun's goin' down
Got to try and rest my weary head
Wake up in the morning when the sun's comin' up
I still remember every word she said.

And it's so bad thinking about it
Not a thing can make my nighttime bright
Yes it's so bad thinking about it
I can't sleep a wink at night.

Sittin' here thinkin' and a-wonderin' if
She's ever ever gonna see the light
And all the time I feel inside
It's never ever gonna work out right.

And it's so bad thinking about it
Not a thing can make my nighttime bright
Yes it's so bad thinking about it
I can't sleep a wink at night.

Come home every evening when the sun's goin' down
Got to try and rest my weary head
Wake up in the morning when the sun's comin' up
I still remember every word she said.

And it's so bad thinking about it
Not a thing can make my nighttime bright
Yes it's so bad thinking about it
I can't sleep a wink at night.
