Spearhead, One Step Closer To You

I've been down for far too long
Till my faith was nearly gone
I never knew somebody just like you
Could be a friend I could call my own

Till I let go of a broken heart
I let go to an open heart
I let go of my broken dreams
I let go to the mystery
And I believe in the miracles
I believe in the spiritual
I believe in the one above
I believe in the one I love

And take one step closer to you
I just take one step closer to you
Even when I've fallen down
My heart says follow through
I take one step closer to you

I never meant to hurt you, no
And you never meant to hurt me too
But it seems like you always do
And even though I'm scared sometimes
If ever see you fallen down
I will be the one that's there for you

So I let go of a broken heart
I let go to an open heart
I let go of my broken dreams
I let go to the mystery
And I believe in the miracles
I believe in the spiritual
I believe in the one above
I believe in the one I love

And take one step closer to you
I just take one step closer to you
Even when I've fallen down
My heart says follow through
I take one step closer to you

I just take one step closer to you
I just take one step closer to you

I keep on walking to you, I'm walking
I keep on walking to you, I'm walking
I keep on walking to you, I'm walking
And I'm never going to stop

Even when I've fallen down
My heart says follow through
I'll take one step closer
I'll take two steps closer

Just take one step closer to you
I just take one step closer to you
