Gino Vannelli, Alive By Science

Respirators Ventilators
High and holy legislators
Give me agony
Pure agony
Vegetation indignation
Endless one-way conversation
Ain't living to me
And when I lose all my self-reliance
Don't keep me hooked up to no appliance
Don't keep me (if you love me)
Mmmm don't keep me
Alive by science
Alive by science
I hear an angel banging on my door
Big Daddy on the top floor
Shouting "Free"
"You gotta be free"
This is my life cest mon affiare
Fat lady's singing
I don't stand a prayer
Now be a love and pull the plug on me
Now babe if you be true to our aliance
Please don't pump my lungs without my compliance
Don't keep me
Oh don't keep me
Alive by Science
Alive by science
And when I lose all my self-reliance
Don't keep me hooked up to no appliance
Don't keep me
Yeah don't keep me
Alive by science
