Girls Aloud, Crazy Fool

Hi, how you?
Bet you didn't even think I knew
About that girl that you'd been talking to
Now you do

Look at me
She resembles everything you see
Had me laughing when I heard that she
Was your baby
Maybe she's crazy

Ooh I thought you knew
He'd been looking for a fair-haired fool like you
He'd been waiting all his life to be with you
Crazy fool
Don't you think I knew?
He'd been looking for the type to see him through
He'd been waiting all his life to be with you
You crazy fool

Heard your dirty calls
The writing's on the wall
Slip but didn't fall, boy
So long

Ooh I thought you knew
He'd been looking for a fair-haired fool like you
He'd been waiting all his life to be with you
Crazy fool
Don't you think I knew?
He'd been looking for the type to see him through
He'd been waiting all his life to be with you
You crazy fool

And it's something you'll regret so
I'll forgive but won't forget though
When your fingers burn you'll learn so
I had to go

Ooh I thought you knew
He'd been looking for a fair-haired fool like you
He'd been waiting all his life to be with you
Crazy fool
Don't you think I knew?
He'd been looking for the type to see him through
He'd been waiting all his life to be with you
You crazy fool
