

# 311, Jupiter

Sometimes the only thing that saves you  
Think of bad things luck never gave you  
And although your true love has just left you  
Well at least your mother kept you

Be sure that the dream's alive  
They're only short burst in life  
Are you able to be satisfied?  
Do you expect fun all the time?

Hey we can rock it easy and lay it in the fold  
Hey we can shake you simply just by being cold  
And if it falls apart will you still be my friend?  
Get back we're gonna stick together

So many things that have gone wrong  
At least you have ears to hear this song  
And if you're reading in close caption  
There's still bad things that could have happened

Long time since we've first came here  
And sometimes we fall on deaf ears  
One thing I've got to say before sales dive  
Stay positive and love your life

Hey we can rock it easy and lay it in the fold  
Hey we can shake you simply just by being cold  
And if it falls apart will you still be my friend?  
Get back we're gonna stick together
