Susan Raye, Loving You

You take my breath away each time you touch me
Your kiss is like a kiss of morning dew
I fall apart inside each time you hold me
It's like a rushing time loving you
Loving you is the only thing I want to do
Loving you is what God intended me to do
So help me to survive to stay close by your side
And let me live my life loving you
Loving you is the only thing...
And let me live my life loving you
