# Tamia, When A Woman

he met her in his home town a couple of years ago
she was beautiful inside and out
how could he just let her go
he had girls on the side and he tried to hide
but somehow she knew
still she stayed
she stayed

but she would always cry every night
but then he noticed a change
she no longer had tears on her face

when a woman stops cryin
you best believe
she has a new plan
she preparing for somethin new something that doesn't include u
when a woman cease to cry
shes already to say goodbye
goodbye

when u stay out late
she don't call to ask where u are
(where u at?)
she just gives u this look when u come home that says
you betta watch yo back
fellas listen to yo girl when she tells you
that shes all cried out
you'd better pray
that shes stay

if she no longer crys every night
if she doesn't comlain any more
shes making her way to that front door

when a woman stops cryin
you best believe
she has a new plan
she preparing for somethin new something that doesn't include u
when a woman cease to cry
shes already to say

just as long as she is arguin
fussin & complainin
as long as she will cry sometimes
everything is all right
oh but as soon as she is quiet
when u mess up shes silent
and has this certain smile apon her face

when a woman stops cryin
you best believe
she has a new plan
she preparing for somethin new something that doesn't include u
when a woman cease to cry

when a woman stops cryin
when a woman stops cryin
when a woman stops cryin over you
