Tata Young, I Think Of You

When I'm down and all alone
When nothing seems to matter
When I lose my hope
When I'm sad and confused

When it all gets turned around and 'round
I can't seem to reach for solid ground
When everything I've believed in seems untrue
All I have to do

Chorus
Is think of you
I think of you when its gone
Like you chase away the storm
and Making it all okay
I think of you
I think of you when I'm strong
And I know I can go on
Its like you set me free
When life gets the best of me
I just think of you

Now I know what love means
And whatever life may hold for me
Through the fire
Through the rain I believe

Cause there is nothing I can't bear
Knowing that you will be there
If I fall I will break
Through it all Ill make it through
Cause all I have to do

(Chorus)

And when I think I'm all alone
I can see the way to go
Lost in the rain of my own tears
To wash away the pain and fear

(Chorus)

For the good times and the bad times
I just think of you
Cause you know you get the best of me
I just think of you
